### Spring Mattress Platform

The spring deck provides a good balance of patient comfort and weight support.

### Dual Motor

The motor profiles the platform electrically and is equipped with a back up battery connection.

### Split Frame Design

Split frame design for easy maneuverability.

### Electric Hi/Lo Motor

The motor raises and lowers the bed height.

### Emergency Manual Hand Crank

The detachable hand crank allows the bed to be manually adjust in the event of power outage, and can be stowed away when unused.
