## LONG-TERM CARE LOW BED

The 3 function long-term care low bed is easy to set up and has multiple bed rail options. The low height feature adds another layer of protection against fall injuries. Built with comfort and safety for the individuals and caregivers, the bed is suitable for care homes and assisted living environments.

### Flexible Rail Installation

Bed rails can also be added to the foot section of the bed to provide additional protection.

### Low Bed Height

The bed can be lowered electrically to just 10.4" off the floor, greatly reducing patient fall injuries.

### Multiple Board Options

Different color head and foot boards to choose from, cherry and mahogany.

### Quick Bed End Installation

The head and foot boards are designed with a quick mounting system.

### High Position

The bed can be electrically raised to 24.4" off the floor, reducing physical strain of caregivers when tending to the patient.

SWL: 205kg / 450lb
