

L400C

ELECTRIC PATIENT LIFT

This lift features electrical lifting designed to ease everyday routines for both patients and caregivers. The lift is powerful enough to handle lifting and moving procedures for most patients in all professional care settings. This lift is constructed to provide safe resident handling and avoid back discomfort to the caregivers.

Padded 360° Hanger Bar

The swivel action allows the patient to be positioned at ANY ANGLE. Six-point attachment allows multiple sling types.

Rechargeable Battery

Direct or standalone charging options are available.

Low Castor Base

Reduced base level allows the lift to be easily manoeuvred around furniture.

Ergonomic Handle

Infinite-grip push handle is ideal for any caregiver to operate without any wrist discomfort.

Double Roller Castor

The double roller front castors improves the lift stability.

Adjustable Base

Extended shifter handle enables easy and quick opening and closing of the lift base.

Lockable Castors

The rear castors can be locked to keep the lift stationary when unused.
