

Proxime^l® Ag Silver

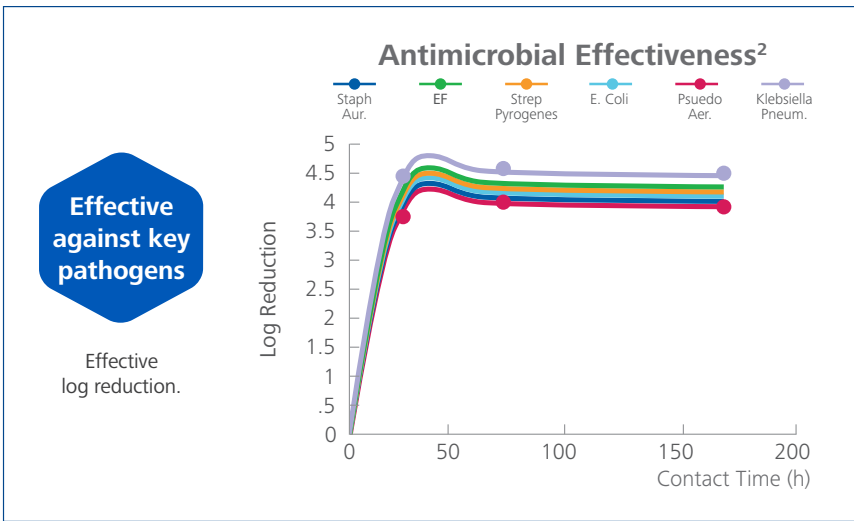

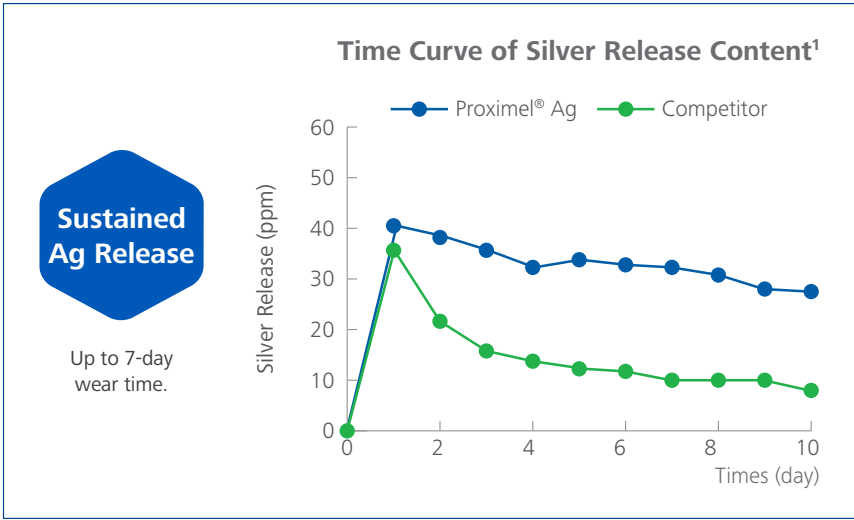

Sustained silver release ensures effectiveness against key pathogens

Expect more from a silver, silicone foam dressing.

Proxime^l® Ag dressings help reduce wound healing time and offer up to 99.99% antimicrobial effect against a wide range of pathogens.² The silver, silicone dressings are used for high, medium and low levels of exudates. Proxime^l® Ag provides a sustained silver release over time, allowing the dressing to be worn for up to 7 days.

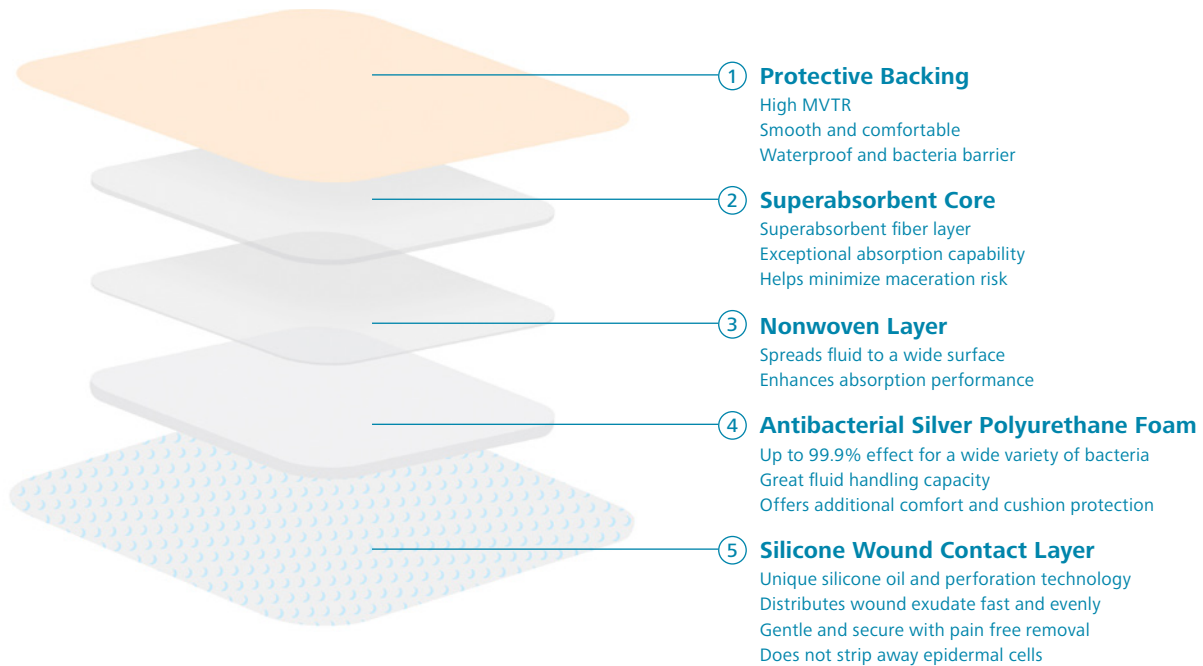

PROXIMEL® AG IS A VERSATILE CHOICE FOR A WIDE VARIETY OF CARE SETTINGS, TREATMENT PROTOCOLS AND WOUND TYPES.

Proximel® Ag: A five-layer antimicrobial foam dressing

Effective against key pathogens and ideal for reducing bioburden in exudate wounds

Sustained silver release ensures effectiveness against key pathogens.

Reduces and redistributes pressure across the surface to reduce both peak and overall level of force.

Proximel's distinctive properties allow you to confidently **lift** and **reposition** the dressing while reducing the risk of adherence failure.

High MVTR rate supports good moisture balance.

Superabsorbent core supports **fast absorption** and helps minimize maceration risk.

Proximel® Ag

Order number	Description	Dressings per box
15100000	Proximel® Ag Silicone Foam Dressing with Border, 3"x3"	10
